VOLUME V, NUMBER 36 THE GOLD CENTER THE NEVADA CITY NUGGET, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, SEPT. 4, 1931

REVIEW OF N. C. BUSINESS

Within the past two years many changes have taken place in the business district of Nevada City.

Doors long closed have been opened, the buildings opened to the sunlight and given a thorough renovation.

New business houses have located in Nevada City.

Established businesses have made improvements.

NEVADA CITY THEATRE

No improvement in the community so delighted the hearts of Nevada City residents as did the announcement by Wm. Tamblyn that the Theatre would be thoroughly modernized and a movietone installed. Nor were they disappointed when the doors opened on the night of July 2, 1931. The interior of the building was covered with celotex and balsam wool giving almost perfect acoustics. The new screen was set in an artistic frame work. The entire interior of the building was given a coat of paint.

Manager Tambly has been careful in his selection of the bookings and as a result has had a full house practically every night.

J. M. HOFF

J. M. HOFF

About three months ago J. M. Hoff and associates took over a group of mines on upper Deer Creek.

They leased the Richards Buliding on the Corner of Pine and Broad and have opened a modern business office.

Within the last two weeks they have opened up an assay office on Commercial Street.

FORESTRY OFFICE MOVED

About a year and a half ago te Tahoe National Forest moved its headquarters from Broad Street to the lower part of the Elks Building on Pine Street which was fixed up to suit their needs.

STATE FOREST HEADQUARTERS

More recently State Forester Wm. Sharp has opened offices on Commercial Street in the building formerly occupied by the Justice of Peace.

SEVERAL NEW EATING HOUSES

Within the past year three new places have been opened up for the purpose of nourishing the inner man.

THE VIKING Restaurant opened on Broad street and has been doing a tidy business ever since.

THE TAMALE PARLOR on Pine St., has proved a popular place for after theatre suppers, as well as other times.

Many have also found THE COFFEE CUP, which was recently opened up in lower Commercial street the right place for a delicious cup of coffee.

THE BETTY JEAN SHOP

Miss Gibbons, who has the Betty Jean Shop, located in the new Oroville Inn, at Oroville, opened a ladies' shop on Broad Street in July of this year. Miss Gibbons came to Nevada City for her brother's health and purchased property east of town on the Tahoe-Ukiah road. She found business good considering the time of the year and is at present in Los Angeles buying for her Fall Opening.

CHAIN STORES

Smith's Package Store, Valley Meat Company, and Purity stores have joined the list of Nevada City stores in the last year.

NEW PHYSICIAN

Dr. Walker Reed opened offices this spring on upper Broad Street.

NEW CLEANING ESTABLISHM'T

A recent one to join the ranks of business establishments is the French Brothers Cleaners, who have headquarters at Grass Valley.

ELECTRICAL SHOP

This Spring Lloyd Hiscox, who

(Continued on page 8)

NEVADA CITY P. T. A. HAS BEEN ORGANIZED

Nevada City Parent Teachers Association met Monday evening to complete organization plans. Mrs. G E. Perry who had been elected as president on the occasion of the first meeting, presided. Other offfcers in attendance were, first vice-president, Mrs. E. Moomey, honorary vice-presidents H. E. Kjorlie, principal of Nevada City High School, and Walter Carlson, principal of Washington Grammar School, Mrs. Elsie Willoughby, secretary, and Mrs. F. A. Elliott, treasurer.

Mrs. Moomey read an excellent paper on the aims and ideals of Parent Teacher Association.

The proposed plan of a childrens library for Washington Grammar School was discussed. Mr. Carlson as principal, gave his approval of the plan. Miss Doris Nightengale, seventh grade teacher was appointed as chairman to look into the matter. Mr. Carlson was asker to assist Miss Nightengale.

The president introduced Meyers Mobley, president of the newly organized Chamber of Commerce, who told briefly of the plans of this new organization and its purpose. This was a very friendly gesture on the part of the Junior Chamber of Commerce and was greatly appreciated by the members of the P. T. A.

A reception to the new teachers is planned for the near future. Committees have been appointed and plans are going ahead rapidly so as to have the reception as soon as possible so that the parents as well as the townspeople may become acquainted with the newcomers.

0

NEVADA CITY PROPOSED AIRPORT IS APPROVED

Marshall D. Hoppin, gorvernment airport specialist gave his stamp of approval to Nevada City's proposed airport on Cement Hill one half mile west of this city when he visited the grounds in March of this year.

The proposed site comprises 267 acres of level ground. The situation is an ideal one as to air currents, proximity to the center of town, and the beautiful view of the surrounding country.

Recently several Nevada City residents have driven to Sacramento and there taken the passenger plane to San Francisco and after spending the day there returned to Sacramento by plane then completing the trip by auto here. If the airport was completer it would mean a saving of three hours in time. Far seeing residents are looking forward to the time when they will be able to enter the plane at Nevada City and fly direct to San Francisco.

A nucleus for the fund of the proposed airport was raised last year and is in the bank awaiting further development.

0

30 NEW TELEPHONES IN THE PAST YEAR

Manager J. E. Gooding has announced that Nevada City has an increase of 30 telephones since State Fair a year ago. Of this increase half or fifteen have come in since June 1st of this year.

The local telephone office is under the efficient direction of Miss Katherine Kinkaid, chief operator who has under her a corps of five young ladies who courteously ask "Number, please?"

Within the past year several improvements were made in the local office. A pay booth was erected with an outside entrance so that anyone wishing to call after the office had closed could use the pay phone there. A display window was also fixed up and is attractively arranged to sell P. T. and T. to the public.

IDEAL HEALTH CONDITIONS ARE FOUND IN NEVADA CITY'S CLIMATE

Nevada City and vicinity of a few miles is particularly suited to people with asthma, sinus, bronchitas, and similar throat and nose afflictions. Our all-year-round model climate makes it suitable for those, who through these afflictions, are compelled to live permanently in this climate. There are very few section in the United States that have these advantages. So many of them are either unbearably hot in the summer or excessively cold in the winter.

The Health Department of Sacramento has reported that our water supply for many reasons is the purest in California, and even in times of excessive drought the quality of our water remains pure.

Our living costs are considered to be the lowest in California if not in most sections of the United tates. Our assessments are low, therefore, the annal sums paid in taxes are so small they need not be considered in ones living costs.

SKI CLUB PLANS FOR BIG SNOW FALL

Within a fifteen minute drive on the Tahoe-Ukiah Highway is situated the Nevada City-Grass Valley Ski Club which has a membership of about four hundred. This includes over forty life members and the rest are associate, or yearly members.

The club was formed last year and a professional ski track, the jumping capacity of 150 feet, and a track one-quarter of a mile long, and a bob sleigh track one-half mile long.

The Club is preparing for a winter of heavy snow which generally follows a dry summer, such as we have just experienced. A drive is being made for the yearly memberships and an endeavor will be made to procure more life memberships.

Improvements planned to add to the enjoyment of this winters' sports include the laying of a dance floor in the barn on the property and the laying of a wooden walk to the course.

Last winter when the winter sports were going on at the course golf was being played on the Nevada County golf course, a fifteen minute drive from the ski course.

DONNER MONUMENT PORTRAYED BY LOCAL PAIR AT LOS ANGELES FIESTA

Mr. and Mrs. Elza Kilroy and son, Billie, are leaving today for Los Angeles to take part in the Native Son's parade, which is to be given on Admission Day as a part of the great Los Angeles Fiesta.

Mr. and Mrs. Kilroy will be the characters on the Donner Monument Float, which is being put on by the Fred H. Greely Assembly of Past Presidents, Native oSns of the Golden West, comprising Nevada, Placer, Sierra, Yuba, Butte, Colusa and Sutter Counties.

They will be escorted by C. W. Chapman and R. L. P. Bigelow of Nevada City.

Mr. and Mrs. Kilroy appeared in this float in the Admission Day parade at Sacramento in 1926, at which time they won $100.00 for the first prize for the best historic float. At that time the float was put on by the Hydraulic Parlor N. S. G. W. of Nevada City, and Quartz Parlor N. S. G. W. of Grass Valley.

The float was first shown at the 4th of July Celebration at Nevada City in 1926 and received so much commendation that the two parlors decided to enter it in the parade at Sacramento.

Mr. Kilroy's active interest in all civic affairs pertaining to his home town, county, state and country, has made him one of our most liked citizens.

The last two years it has been noticeable that Mr. Kilroy has been one of the main ones in preparing floats and marshalling all forces together to make out Nevada City 4th the talk of the country side.

It is small wonder he takes such pride in all events when we realize that his grandfather was born at Cherokee near Columbia Hill and his grandmother, Mrs. Cooster, was a native of Yuba County.

His father followed mining for long years, later being nightwatchman of Nevada City.

We are proud that we have three of our prominent citizens taking part in the Fiesta de Los Angeles, celebrating their 150th birthday.

Mr. Bigelow is superintendent of Tahoe National Forest and also takes great pride in local improvements.

Dr. Chapman, our local popular dentist, has always taken an active interest in Fire Department, being No. 1 man in No. 1 Hose Co. He is not only active in the Native Sons but a great factor in aiding the Boy Scouts.

Mr. and Mrs. Kilroy as they appea red in the Sacramento Admission Day Parade in 1926

SCHOOL REGISTRATION SHOWS PERCENTAGE GAIN

One of the best indications of Nevada City's growth has been the gain in the attendance in both the grammar and high schools.

The largest gain was made in the high school which has enrolled 164 a gain of 16% over last year. The high school has an entire new faculty with the execption of the Principal H. E. Kjorlie, who held a teaching position in the school for three years prior to being elected as principal.

The high school has been thoroughly renovated after the fire.

The flooring of the principal's iffice and teacher's rest room, has been thoroughly gone over and covered with heavy battleship linoleum which is both serviceable and rick in appearance. This type of covering is also to laid in the main hall. The walls of the entries as well as the class rooms, are smooth and pleasantly aromatic from recent applications of hard wall plaster, a more lasting substance than that of the old building. To give a restful appearance the walls have been tinted in two tone shades which harmonizes well with the dark staining of the wood work.

A distinct improvement was made in the commercial room where a glass partition was installed to divide the room in two sections and yet possible to be successfully handled by one teacher. One section will be devoted to the bookkeeping department while the other will be given over to typewriting class quarters.

General re-construction was carried out in the library where better provision has been made for the storage of books and supplies. The latesttype drafting tables have also been installed and the improvement over the old will be noticeable.

A special feature introduced in the construction was that of installation of genuine Italian slate black boards in the varous class rooms. This board is the best obtainable and possesses long life.

Wm. Treglown, new custodian at the high school, put the polishing touches on a new type drinking fountain which is located centrally in the main hallway. Improved plumbing fixtures in the biulding include piping improvement to the various parts of the building and an improved fire prevention pipe system which is a preliminary to a sprinkler system. This will be placed in the attic.

New typewriters have replaced the old which were badly damaged by the April fire and these machines will be given individual tables instead of the single long table formerly used.

From basement to roof the renovating work has been complete.

An outstanding improvement has been realized in the music room which has been equipped with sound proof insulation. This will be beneficial to classes at study during the hours of music periods.

Better lighting was also given great consideration and the type installed is highly practical and used effectively in large public buildings.

The pupils are looking forward to a delightful year of association with the new teachers both in the class rooms and out.

At Washington Grammar School 261 pupils have been enrolled. This is a 12% gain over last year. Only two changes were made in the grammar school. Miss Ruth Hogan was appointed to teach in the 5th grade and Miss Kate Shearer in the 6th grade. Both of these are local girls and are very popular teachers.

0

BURKHART PURCHASES THE ED SCHMIDT SERVICE STATION

Frank Burkhart has purchased the service station at the junction of Broad and Commercial streets, formerly owned by E. W. Schmidt, who has been appointed deputy assessor under Assessor John M. Hammill. Mr. Burkhart is an ex-service man, living just across the street from Mr. Ed Schmidt's home.

JR. CHAMBER IS ORGANIZED

A progressive group of young men of Nevada City have recently organized a Junior Chamber of Commerce, incorporated under the laws of the State of California and patterned after similar organizations in the larger cities.

The officers of the newly organized Junior Chamber of Commerce are: Myers Mobley, President; H. E. Kjorlie, First Vice President; Howard Penrose, Second Vice President; Arthur M. Hoge, Secretary; D. Brunning, Treasurer. Directors officers make up the board of directors for coming year.

A committee drive was made last week for the purpose of securing members and about 70 signed up to date.

The officers are a live bunch of young fellows who believe in the future of Nevada City and are anxious to do all they can in the way of advancement. An advertising program is being carried out. Contacts have been made with the California Incorporated and the National Automobile Club, who have promised to do their part towards advetrising the healthful climatic conditions of this city.

0

Congressman Harry Englebirght

Nevada City feels justly proud of her townsman who serves the largest Congressional District in the state in Congress.

0

TWO IMPORTANT HI-WAYS CROSS AT NEVADA CITY

Two highways which promise to be two of the most popular in the state cross at Nevada City. In fact they join at Grass Valley and are one as far as Nevada City when they again separate. The nearly completed Tahoe-Ukiah which leaves the popular Redwood Highway at Ukiah and skirts the lovely Clear Lake in Lake County thence over the mountains into the Sacramento Valley whence it wanders through the foothills to the Sierra Nevada Mountains, thus giving the tourist an interesting and varied scenic trip.

Of far greater importance however will be the Federal Highway which will link the State and National Parks within the State and will go thru the picturesque towns of the Mother Lode. The Nevada City-Downieville highway will be a link in this great chain.

0

FIRE FIGHTERS ABOUT MAKE GOOD RECOVERY

It was a pleasure to see Mr. Carl Larsen out again after being laid up for some time from injuries received when his ca r was wrecked recently on San Juan road, while on the way to a fire.

Mr. Byron Douglass, who was injured in the same accident is also making good recovery from a broken arm, which is good news to his friends.

NEVADA CITY-GRASS VALLEY is called the only BRIGHT SPOT in the United States during this dreadful depression which has settled upon the world due to economic conditions.

While this district is NOT IN A POSITION to supply WORK for all the UNEMPLOYED who find their way here, yet there is employment for all our local people who are able to work. The wage scale is high, and living conditions ideal which makes for a HAPPY CONTENTED COMMUNITY.

AGAIN WE WISH TO STRESS that this district is in no wise in a position to solve the unemployment problem of California and beg that it be not advertised as such, HOWEVER, we do feel that Nevada City offers much to those who desire ideal conditions to live in. We have many instances of people who have traveled over the state to find a suitable location and have found here just what they were searching for. HEALTHFUL CLIMATIC CONDITIONS—PURE WATER SUPPLY—AND SCENIC BEAUTY. Furthermore we have here a friendly little city abounding in community spirit and civic pride. While many families date back to pioneer parentage, yet they welcome the stranger and treat him kindly.

LODGES and CLUBS flourish here. The Elks with their splendid building and comfortable club room are most generous in opening their doors for meetings which pertain to civic or patriotic betterment. The Masons have their own building where the Blue Lodge, Royal Arch, Knight Templar and Eastern Star meet. The Odd Fellows have their own building as do the Improved Order of Redmen. The Knights of Pythias meet in their own hall. Numerous other orders hold regular meetings also. The Womens Civic Improvement Club is a very active organization and has made many improvements in the community.

NEVADA CITY welcomes among her newcomers, R. J. Martens. Mr. Martens is a sufferer of sinus and throat trouble. Finding the bay region intolerable to his condition he was sent by his physician to Arizona. There his condition remained the same. Remembering that he had relief from his trouble on a visit to this section he returned here and secured almost immediate relief from his suffering. He purchased a piece of property on Lost Hill. It was just a tumbled down shack when he bought it but his experienced eye saw the fine old timbers the pioneer put into the building and saw its possibilities. Within two months he transformed the shack into a comfortable and artistic cottage and the barren ground surrounding it into a park. The transformation was Alladinlike so quickly did it take place. Mr. Martens has been identified with big enterprises in most of the big centers of the world. His restless energy is stirring this little community to action. Believing in the community and its future he wants to broadcast it to the world at large. Again let us repeat, we welcome Mr. and Mrs. Martens into our midst.

We dislike to say, "I TOLD YOU SO", but feel that we really must. For over a year The Nugget has predicted the boom which has come to Nevada City and urged that the people of Nevada City prepare for its coming. Like the foolish virgin, however, Nevada City was caught without her lamp trimmed and burning. Hundreds of families want to live in Nevada City, but can find no home to live in.

DOCTORS in the Bay communities are recommending this city to their patients who have sinus trouble and there are thousands suffering from that affliction who would be glad to go where they may find relief. This section has been suggested, but their patients cannot find accomodations and must seek relief elsewhere.

LAST BUT NOT LEAST when the last link of the Tahoe-Ukiah highway is completed and the federal highway thru the Mother Lode is a reality the tourist trade will be increased ten fold.

LET US NOT AGAIN BE CAUGHT NAPPING, BUT TRIM OUR LAMPS AND BE READY.

PENNEY'S, GRASS VALLEY SERVE NEVADA CO BUYERS

The Grass Valley Store of J. C. Penney stood second on the list of the 119 stores in California. The Glendale store taking firt place in the increased sales percentage. The Glendale store was moved in June to a new location on the busiest street and placed in a fine new building.

No small part of the credit of the increase is due to Manager Earl Covey, who made every effort to please his customers. He has studied the needs of his buyers as a doctor diagnoses a case. The result is satisfaction on the part of the customer who makes Penney's Grass Valley Store his buying center.

Much has been written and said about chain stores and the lack of community spirit on the part of the store managers. This is certainly not true of Manager Covey. He is deeply interested in every movement for civic improvement. All his employees own their homes in Grass Valley and he wants to see the town grow. He gives generously of his time to all worthy causes. Also he is a real Grass Valley booster. The results are that he has made friends for Earl Covey and customers for J. C. Penney Company.

ISAAC WALTONIANS ADOPT THE AIRPLANE

Four airplane landing fields have been established in the Inyo National Forest to accomodate fishermen, mainly from southern California, who try their luck in the streams and lakes of the high Sierra. The South Fork Meadow field has just been opened and there have been 18 landings at the Monache and nine at the Templeton fields this season.

PRODUCTION OF MICA DURING THE YEAR 1930

The total quantity of uncut mica sold by producers in the United States in 1930, was 7,465 short tons, valued at $286,407. as reported by the United States Bureau of Mines, Department of Commerce. These figures (including sheet and scrap mica) represent an increase in quantity of 2.7 per cent and a decrease of 29.1 per cent in value, as compared with 1929. The decline in total value is due partly to the inclusion in 1930 of a larger proportion of scrap mica in total sales than in 1929. Of the total quantity sold, 733 tons (1,465,485 pounds), valued at $177,307, was sheet mica, including 1,253,782 pounds of punch mica, valued at $61,230, and 211,703 pounds of mica larger than punch, valued at $116,077. A very small quantity of uncut domestic splittings was reported by one producer and included in the sales of sheet mica. In addition to sales of sheet mica, there were 6,732 tons of scrap mica sold in 1930, valued at $109,100.

The sales were made by eleven states: Alabama, Colorado, Connecticut, Georgia, Maine, New Hampshire, New Mexico, South Carolina, South Dakota, and Virginia.

Nevada City Nugget

VOLUME V, NUMBER 36 THE GOLD CENTER THE NEVADA CITY NUGGET, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, SEPT. 4, 1931

CAMPTONVILLE IS BECOMING ACTIVE

Renewed activity has been noted the mining industry at Camptonville during the past month. Supervisor Andrew J. Modglin of Sierra County has been making a general inspection of the Snowden Hill property, with the prospect of being able to start operations.

Charles J. Scanlon of San Francisco, with his son, has taken over a number of claims located by Camp, near Indian Hill, and expects to do some work on them this winter. He is at present building a house and making a road into the property.

The Indian Hill Mine has a fair sized crew getting ready for a winter's run, and has considerable of the preparatory work already done.

Two large truck loads of twenty-four-inch hydraulic pipe came in a few days ago from the South.

James Grimes, principal owner of the American Flag Mine, a quartz property a short distance north of here, is completing the assessment work for this year. Many tons of millable rock is now out and ready for milling.

The Golden Bear, located nine nine miles north of here, belonging to Mark Alling, is making a good showing and has the prospects of a worthwhile property.

The Alta View property, a combination of the Mt. Alta and Pleasant View, has been working a good crew for the past several months, and has considerable virgin channel to open. The property is operated by Dr. Clyde Wayland of San Jose and C. N. Chatfield of Pike is superintendent.

The Halkyard Mine is doing development work under the direction of B. F. McNaught and some very good ground is expected to be opened up.

The Honeycomb Mine, one mile northeast of town, is running the tunnel ahead under the direction of Frank Pendola. This is one of the most promising quartz properties in the section.

George W. Lischer is getting the **Weeds Point hydraulic** property in shape for the winter's run. With a good water season this property will make quite a showing.

Other prospecting is being done in the district, showing more activity than has been shown in this part of the country for quite some time.

SILVER TIP AT RAMSHORN TAKES OUT LARGE NUGGET

The Silver Tip placer at Ramshorn near Downieville reached the channel within the last few weeks and found rich virgin ground. The first nugget picked up weighed 22 ounces. They were forred to close down on account of the lack of water but plan to rework the claim as soon as the fall rains set in. In the mean time they are employing their time by getting in their winter's supply of mine timber.

The Silver Tip is located in a ravine at Ramshorn. A big slide covered up the channel and changed the course of the river. This ground has never been worked before having lain neglected all these years.

J. E. Kretz and T. E. Davis have been working on the tunnel for many years and had to drive 600 feet into the mountain before reaching the channel. However they now feel fully repaid for their labor.

BLACK OAK NEAR WEIMAR TO START MILLING ORE

A five stamp mill has just been completed on the Black Oak Mine near Weimar in Placer County. The property is operated by Edwards Brothers.

A tunnel has been run into the hill for 120 feet. It is 30 feet above an abandoned drift which joins the new tunnel by a shaft. The milling ore runs from $19 to $60 per ton.

At the present a track is being laid from the tunnel to the newly erected mill and as soon as completed actual milling operations pill be started.

EAGLE BIRD INSTALLS A SMALL TEST MILL

The Eagle Bird Mine at Goodyears Bar have installed a small plant for the purpose of testing their ore for mill run. The assays were exceptionally promising but they wished a more accurate test so have put in a small ball mill for the crushing and running it over the plates. Since most of the ore is free they recover about 97% by this method. The ore consists of mainly sugar quartz with some galena.

They have drifted 1000 feet along the face of the vein or five foot ledge. The ore is averaging $20 per ton of mill run. Four men are working at the property under the direction of Martin Miller, who is the engineer in charge of operations

The property is owned by the Acme Development Company who have their headquarters at the Forum Building, Sacramento. Robert Schwab of Sacramento is president and J. G. Bodehamer, secretary. These two with Mr. Miller own all the stock in the company.

GOLD REVIVAL AIDS DEPRESSION, BRADLEY

"Increased activity in gold mining is relieving the depression in California."

Such was the statement made by Walter J. Bradley state mineralogist, who attributed the present "boom" to the low cost of mining materials, and to the fact that "usage of gold has set a fixed price for the metal, while other commodities fluctuate.

"With gold mining activity again becoming intense on the slopes of the Sierra Nevadas," Bradley said "thousands of investors may now get their money out of previously "dead" gold mine investments.

"Increased gold mining is providing employment for thousands of men," he added, "and will have the effect of spurring other industries."

MINING ENGINEER VISITS NEVADA CITY DISTRICT

Frank M. Leland, mining engineer of note has been visiting the Nevada City mining district the past week. Mr. Leland visited this district in 1897 when all the mines were going full blast. He preducts that much of that activity will return.

Mr. Leland has mined all over the western coast from Alaska to Mexico. He is at present making his home in Oakland.

Incidentally Mr. Leland is boosting Nevada County to his friends and purchased a number of CALIFORNIA MINING JOURNALS to send to them.

GOLD HUB BREAKS INTO GOOD LOOKING ORE

After running a tunnel 190 feet toward the ledge at the Gold Hub Mine, good-looking ore has been encountered upon breaking into the anticipated ledge, according to Superintendent A. D. Hinton, who says he is well pleased with the showing at the Hub. Development work has been largely confined to the driving of a drift from the main tunnel. Exploratioi work will be continued to ascertain if the main ledge has been found and the extent of the ore body.—Mountain Messenger.

MINING PERSONALS

Mr. Peter tum Suden, lawyer of the bay region, was a business visitor in Nevala City during the week. While here he went to the Delhi Mine which has a past production record of a $1,000,000.

A. T. Vander Linde, vice president of the Hammond Machinery Builders, of Kalamazoo, Michigan, was a caller at The Nugget office Wednesday. He was pleased to see our section in a prosperous condition.

NEWMONT INTERESTS PURCHASE CHAMPION GROUP OF PROPERTIES

A deed was placed on record at the court house Wednesday of the purchase of the Champion Group of mine properties near Nevada City by the Newmont Interests. This is one of the steps in clearing up the affairs of the North Star Mines Company, which was purchased more than two years ago by the Newmont.

W. A. Simpkins who handles the matter stated that the affair had no special significance except in the liquidation of the North Star. The deed was signed on July 1 but was not placed on record until yesterday. He further stated that no plans have been made to reopen the property in the near future.

The legal record reads:

All the rights and interests of the grantor company in and to all mining claims, minerals, canals, ditches flumes, reservoirs, water and water rights, easments and rights of way owned by it. and include the following well known mines:

The Providence mine and the properties operated by the old Providence Company. The Champion mine, Wyoming Mine, Ural Mine, Merrifield quartz mines operated by the Champon Company. The Spanish mine and properties operated by the Spanish Mining Company. The Home Quartz Mine and properties operated by the Home Mining Company. The Nevada City Mine operated by the Nevada City Mining Company.

The Champion group now controls 440 acres and comprises the Champion, Cadmus, Home, Merrifield, New Year, Nevada City, Providence, Wyoming, Soggs and several less celebrated claims, having a total estimated production of from $8,000,000 to $20,000,000. The Champion alone has a past production of about $3,000,000.

The Champion Mine employed about 200 men when it was in operation and Nevada City saw prosperous and happy times.

GOLD OPERATIONS START ON AMERICAN RIVER

Operations which have started along the American River near Coloma and Lotus for the recovery of gold through use of a unique semi-dredging plant have attracted widespread attention among mining men of this state. The plant, especially designed for use in this project, is of the dredger type, devoted to the extraction of gold, even to low values, from banks and bottom of the river channel, and is said by experts who have inspected it to be unique in the mining world.

The Great Bend corporation is the name of the concern operating the plant. Clarence Kendall is general manager and one of the larger stockholders. Recoveries have not been high so far due to the fact they have been operating but a short time.

The main office is at Lotus, where an assay office and other equipment are installed to facilitate the work. The plant represents many thousands of dollars invested.

Official of the company claim recovery to be about 100% of value found. Ground that averages less than $3 a ton is profitable to work. They have a mile and half of stream bed to work and have given it thorough testings.

Permission has been granted the company to change the course of the American River for a considerable distance, thus getting into virgin mining ground.

It is felt that the operations will be entirely satisfactory and highly profitable.

MODOC MINES SHOW HIGH TEST ORE DEPOSITS

Unusual interest is being manifested in Modoc county's gold bearing zones, according to William Nance, sign painter and gold mine operator of Alturas.

Nance declares that the high grade districts of Modoc county look like final winners after 20 years of presistent prospecting by different property holders. He gave a summary of the mining situation in the county as follows:

The Dixie Mine, near the Fort Bidwell summit, reports the opening of a new ore body of interest. The gold is entirely free milling with little silver content.

The Klondike is completing its pilot mill and the Larkin holdings have revealed important discoveries recently, which have resulted in the owners planning an extensive outline for immediate work there.

The Lost Cabin mine, 30 miles northwest of Alturas, has installed a ball mill and ordered the first unit of a modern flotation plant for treatment of a large body of ore aggregating values in excess of $20 per ton.

Nance announced that an attractive display of Modoc ores may be seen at the Alturas chamber of commerec. This display has been there only a short time, he said, and alrady has attracted a great deal of attention.

MINING ENGINEERS TO MEET AT GRASS VALLEY

The San Francisco Section of the American nIstitute of Mining and Metallurgical Engineers will hold a meeting at Grass Valley on Saturday, September 12.

They will travel from San Francisco to Sacramento on the night boat of the California Transportation Company. They will be met at Sacramento and brought to Grass Valley. Those who desire to do so will be taken underground at the Idaho Maryland mine. The day will be spent in visiting the various mining properties in the district.

At 6:30 p. m. a dnner will be given at the Empire Country club to which a number of local mining men have been invited. The affair will be very informal. A number of talks of interest have been scheduled for the entertainment of the guests.

SUGARMAN, PROVIDENCE MINES WORKING CREWS

Sonora, Calif., Sept. 3—Several hundred dollars worth of rich gold ore is being extracted daily by Ralph Butler and associates in development work being prosecuted at the Sugarman Mine, about a mile north of Sonora. The ore, freely impregnated with flakes of the yellow metal, is being obtained from a vein about a foot wide being followed by a drift on the 380-foot level of the property. The rich find was made about a week ago and thus far about $2,500 in high grade ore has been accumulated. The property is equipped with an air compressor two machine drills, pumps and hoist, all electricall driven. The operators plan the early installation of a 10-stamp mill,it is asserted.

After cleaning out and repairing a 300-foot drift tunnel, extended 30 years ago, on the Consuello section of the Providence mine, a notable lode gold producer, 25 years ago, a crew of miners employed by Edward Collins, San Francisco mine operator is opening up an orebody which should materially add to its past production record, it is stated. Renewed development work in the tunnel, Mr. Collins asserts, has resulted in the disclosure of a shoot of ore 12 feet wide which yields pannings indicating a good grade of milling rock at a vertical depth of 150 feet. It is the intention of Mr. Collins to erect a milling plant on the property in the early future. Tests are now being made on the ore to determine the character of mill required.

With a drift tunnel, now measuring 370 feet in length, on the Mohrman mine at Big Oak Flat, Joseph and Frank Musante have exposed a foot and a half of ore of execellent grade, it is stated. Picked specimens show large flakes of free gold. The yield of current operations is being stored in bins for future milling in the two-stamp mill on the property ,which is idle at present on account of shortage of water.

TWIN SISTER MINE IS RUNNING RAISE

The Twin Sister mine at North Bloomfield is making a fine progress. There are eignt men working at the mine now. A raise is being run from the No. 3 level to the No. 2 level, a distance of 350 feet on the ledge. The ledge averages 4 feet in width and the ore is of good quality for milling .As soon as the raise is completed they will start stopeing as this will make the ore in the mine available to the mill by gravity. The mill is now only operating two shifts a week but as soon as this raise is complete they will be able to work much more efficiently and expect to be able to take out the ore in sufficient quantities to keep the mill operating steadily.

Within the past year a ball mill and flotation plant was installed at the mine. The ball mill is capable of handling 70 tons a day. The flotation plant is giving very satisfactory results. A large percent of the gold is free milling and about 76% is recovered on the plates. The flotation plant recovers an additional 20% making a total recovery of 96%.

President and General Manager R. O. Foster is at the mine himself personally supervising the work. He disposed of his property in Mendocino County in order that he could spend all his time at the mine. He deserves much credit for his perserverance.

BUTTE COUNTY SETS DATE FOR MINING CELEBRATION

The Butte County Mining Association held a large smoker at Oroville last Friday night for the purpose of selecting a date for the coming mining celebration. The meeting was attended by over 100 business and professional men as well as members of the Mining Association. Practically every operating mine in the county was represented at the meeting.

They plan to hold another large meeting at Chico Friday, September 11th. at which time officers of the Mining Association of California as well as state and county officials will be invited to plan for the three day celebration.

The date decided upon Friday night was May 12th, 13th and 14th of next year. The officers and members of Butte County Chapter are laying their plans for a first class celebration next spring.

VON HUMBOLDT MINE IS OLD-TIME PRODUCER

Miners in the American Hill district are optimistic about the future of that old mining district which proved so rich in the early days of this county. Little mining of importance has taken place there in recent years, but a new interest in that section is being shown which holders of property are hopeful will result in the reopening of a number of mines in the near future.

An old producer in this district and which it is expected will take its place among the county's producing mines again is the Von Humboldt, dormant for 40 years.

This mine dates back to 1866, when a group of Germans located the property and named it for a famous German mining engineer. They are reputed to have taken $183,000 from shallow workings, a large part of which was done by means of a glory hole. A ten stamp mill was operated, the ore being free milling and most of it high grade, it is said.

Then the vein was lost, caused by a dyke or fracture, and the Germans failed to pick it up again. It was found many years later after the mine had been abandoned, but in the meantime the mill was burned to obtain the gold that had been deposited about it.

The Von Humboldt, like many another Sierra County mine, has an interesting history. Its present owner, Frank Williams, has carried on development work to a point where he believes this property will again become a steady producer with proper backing.—Mountain Messenger.

NEVADA EXHIBITS GOLD ORE AT FAIR

Several tons of high grade ore were taken down to Sacramento Wednesday to be displayed at the State Fair. These came from mines producing at the present time rather than some relic of past operations.

Large pieces of gold bearing quartz were loaned by the Murchie, Hoge Development Company, Nevada County Cines Co., from Constitution mine; Spanish Mine, North Star-Empire, Idaho-Maryland, Golden Center, Boundary and Newtown mine. One of these pieces weighed as much as 800 pounds and required the work of four men to place it upon the truck and was richly impregnated with free gold. It is estimated that its value would run several hundred dollars. Most of the pieces selected weighed at least 200 pounds and showed considerable free gold.

Besides these specimens enlarged photographs of the various mines have been made and will be displayed.

Large prizes have been offered for the best gold display and there is little doubt but that Manager Griffith will bring back one of the prizes perhaps the first—with him.

The Nevada City Camp Fire Girls have made a replica of Lake Vera—the summer camp of East Bay Camp Fire Groups. A large mirror loaned by Mrs. O. E. McCraney forms the Lake, The local girls met several afternoons the past months to dress the dolls in the costumes of the various groups.

Elmer Breckenridge has been busy for the past few weeks gathering the fruit which has been kept in cold storage awaiting the opening of the fair. Nevada County's fruit has always won prizes at the State Fair.

Nevada County homes will be featured this year also. Photographs of the leading homes in the two communities were taken and enlarged.

In all, the display at the 1931 State Fair, promises to be the best ever exhibited by this county.

PHENOMINAL STRIKE MADE NEAR AUBURN

Miner's luck again played a part in a rich strike made at the Centennial Mine two miles south west of Auburn. The find created a great stir among the mining men at Auburn at the ore is said to run from $50,000 to $100,000 per ton.

Twelve months ago William Walsh of Auburn and Ira Thorpe a miner opened up the property Thorpe finding good indications of a ledge drifted for 350 feet. He had actually touched the rich vein when a blast covered it completely.

Recently Walsh severed connections with Thorpe and interested Dr. C. E. Lewis of Auburn in the venture. They engaged E. C. Klinker to put the mine in operation.

It was while cleaning out from the last shot made by Thorpe that indications of high grade ore was uncovered. About 200 pounds of the high grade ore was taken out. The ledge is about five and a half feet wide.

A compressor is being installed on the property and later they plan the erection of a stamp mill on the property.

IRETON MINE PURCHASED FROM IRETON ESTATE

Jamestown, September 3, 1931—J. W. Mullin of Bevereley Hills, Calif., and associates have purchased from the estate of the late William Ireton the Ireton mine, embracing 40 acres of patented land, four miles east of Jamestown, and put a force of miners to work. Surface trenching is being done to determine the most advantageous site for the sinking of a new shaft. When worked in the early days, the property, according to reports yielded $200,000 in placer and lode gold from surface and shallow depth operations.

James Bardbury mining man of Alleghany was a Nevada City visitor Saturday while enroute to Reno

LOCAL HAPPENINGS

Edgar Bowden, well known and popular employee of the Alpha Hardware & Supply Co., is back at work again after an enforced vacation due to an operation. Mr. Bowden will work on the floor instead of operating one of the big trucks.

Mr. and Mrs. Chas. Guenther left Thursday for Los Angeles to visit their son, Harold and wife.

Mr. and Mrs. Acton Cleveland, Mr. and Mrs. F. J. Joubert and Mr. and Mrs. J. E. Pauly of Camptonville attended the ceremonies of the Scittish Rite Masons Saturday evening.

Mr. and Mrs. E. J. N. Ott had as week end visitors their son, Emil Ott Jr., and wife.

Dr. and Mrs. Vinton Muller of Reno are here visiting relatives and friends. He is the son of the late Dr. and Mrs. Muller of Nevada City.

W. J. Tickell and John Chegwidden are home from a visit in San Francisco. They saw the U. S. battleship fleet in San Francisco bay. This is a never to be forgotten sight and is a delights to any true blooded American.

Mr. and Mrs. Charles Leiter have as guests, Mr. and Mrs. E. T. Leiter and Mr. and Mrs. George Leiter, all of Oakland.

Fenton Fleming of Sacramento spent a few days in Nevada City returning home Saturday. His old home on Boulder Street is where President Hoover lived while in Nevada City many years ago.

Mrs. Ragland Tuttle is spending some time in San Francisco visiting relatives and friends.

Mrs. Gove Celio and son and daughter are hom efrom a summer vacation spent with relatives in San Jose.

Mr. and Mrs. W. G. Richards had as guests over the week end, their son, Gilbert and wife of Sacramento.

Mrs. R. H. Shurwood and children, Earl and Margaret Smittcamp, of Kerman came up for a visit with the former's mother, Mrs. George Downey. Margaret will remain with her grandmother.

Mr .and Mrs. Andrew Tobiassen and Theodore Tobiassen, caretaker of the Elks Hall, are home from a vacation spent in Northern California.

Mrs. Lena Redding of Downieville was a visitor here Monday. She called at The Nugget office while here.

William Hogarth, mining man formerly of Arizona, is visiting here. Mr. Hogarth has the Twin Quartz property near Camptonville.

HEAVY TRAFFIC OVER LABOR DAY PREDICTED

With the heaviest September rail travel in the history of this and adjoining western states anticipated during the first two weeks of the coming month, Southern Pacific Company has been mobilizing all its available equipment for expeditious handling of the traffic.

Re-establishment for the first time since last May of the company's now-famous cent-a-mile transportation fares, September 3, 4 and5, has led the prediction of extraordinary travel on all parts of Southern Pacific's system from Portland to El Paso and from San Francisco to Ogden, Salt Lake City included.

Advance hotel reservations in cities in the territory involved, at resort centers and elsewhere, and pre-sale inquiries to Southern Pacific all tend to indicate the anticipated record travel, accordng to Felix S. McGinnis, vice president of the company in charge of system passenger traffic.

A 12day return limit from the first date of sale is being authorized in connection with the "Dollar Day" sale. This, added to the fact that the sale just precedes the Labor Day weekend and, in California, the Admission Day holiday, is expected to enhance the value of the bargains to the traveling public.

Travel to the much publicized Fiesta de Los Angeles, September 4 to 13, and to the California State Fair at Sacramento, September 5 to 12, is expected to be unusually great due to the cent-a-mile roundtrip fares.

The roundtrip fares will be based on three-fifths the cost of the usual one-way ticket. Tickets under the plan will be good on all trains, coach or Pullman.

KARL KOPP TO BUILD TEN MODERN CABINS

Nevada City has no finer citizen in her midst than Karl Kopp who purchased Scadden's bakery ten years ago and serves not only the people of Nevada City but all the upper country as well with their excellent bread and pastry.

They own the building in which their bakery is located as well as three houses near the court house. They keep all their properties in excellent repair and are constantly making improvements.

Recently they purchased a lot on Nimrod street and are building ten cabins on it. One of these cabins is already complete and another on its way. Later they plan to erect several modern cottages on the property.

George Fortier of Monterey motored to Washington where he joined Mrs. Fortier, who has been spending the summer there. Plans are that he will join John Fortier in a trip to British Columbia.

BUILDING ACTIVITY IS NOTICABLE

A number of modern 4-room cottages have been erected in this locality within the past month. In Grass Valley Elmer Plummer, Mrs. E. Richards, Tom Gilbert, Henry James have built modern cottages.

At North San Juan a cosy cottage is being built for Mrs. Anna Smith.

F. B. Prather of Oakland is building a comfortable modern home in a wooded section east of Grass Valley. He plans to build a number of modern cottages in the future.

The lumber for the building of these cottages is being furnished by the Diamond Match Company.

FIRST ANNIVERSARY IS OBSERVED BY YOUNG COUPLE

Mr. and Mrs. Darrel E. Moody entertained a few friends at their home on East Broad Street Wednesday night in honor of their first wedding anniversary. A happy time was enjoyed by all.

BOLTONS BUY NEW HOME IN NEVADA CITY

Mr. and Mrs. Harry Bolton have purchased a home from Contractor Rude on Walworth Avenue, near the Nevada City High School. The house was reconditioned after a fire and is modern and up-to-date in every respect.

The Bolton family moved from Boulder Street to their new home about two weeks ago.

NEWTOWN MINE IS BEING RETIMBERED

The Newtown Mine has completed retimbering 100 feet of the 150 feet of old tunneling. As soon as the retimbering work is completed they will start sinking a shaft.

Two air compressors on the property afford a fresh supply of air to the workers. The new hoist is completed and in fine working order.

FRENCH CORRAL NEWS

(From Last Week)

FRENCH CORRAL, Aug. 25 (Special to The Nugget)—Hot weather still prevails, forest fires not far distant add to the temperature. Pleasant Valley had her sign of fire this past week. Everything dry for want of irrigation. All these togetner certainly make the situation acute.

The fire demond seems determined to clear out all pasture for stock A fire swept the Colgate ranch during the week. While this clearing out of brush, will do good for next year, it works a hardship for the present on those who have stock to feed.

We will live in hopes of first rains in September, as it used to be

The French Corral school started Monday 24th, with eight pupils. Four of our former pupils entered "Hi" this year. Irene and Billy Browning, Teddie Schwartz and Esther Shipley. Irene and Billy go to Nevada City; Teddie to Grass Valley, and Esther to Oroville. While we are glad to see them progress in their school work, we are sorry for ourslves for we will sadly miss the pleasure they have given us by their splendid entertainments and many other things done for the pleasure of the older people. They leave us with sincere good wishes for their future welfare. Under the guidance of our splendid teacher Mrs. Elsie Schwartz, whose services we are fortunate in preserving we can see future pleasures in store for the adult.

The people of San Juan Ridge are certainly enterprising if they had but half a show. Through all kinds of difficulties they have preserved their schools, and this has not been done without much effort and sacrifice on the part of the patrons.

Our neighboring town of Birchville shows this spirit of "never say die, till you're dead", when the neatest little schoolhouse has taken the place of the one destroyed by and school will begin with the other schools next week.

W. E. Moulton made a trip to Nevada City Tuesday. He was accompanied by E. de Prati and Mrs. H. Hoskins and children.

Mr. and Mrs W. E. Moulton and Mrs. Moulton's sister, Mrs. Lena McCarthy, and Mrs. J. W. Culver made a trip to Oroville Wednesday and visited with old neighbors of French Corral. Mr. and Mrs. P. M. Williams, Mr. and Mrs. J. B. Mardon. They also visited the old mining town of Cherokee Flat.

Mrs. K. Sullivan and L. Haslett had business in Nevada City Thursday.

Mrs. A. Browning and children and Miss Millie Clerkin went to Nevada City Thursday to attend the picnic given at Olympia Park, by the Order of Woodcraft.

Mr. and Mrs R. Dahlberg and children were visitors in Nevada City Thursday.

Mr. and Mrs. Wm. Smith and Mrs Smith's father, O. W. Bean, came to French Corral Friday evening, They were the guests of Mrs. K. Sullivan of that place. They returned to their home in San Francisco Sunday afternoon.

A. Vivian and family moved to their former home in Oroville Friday.

Mr. and Mrs. W. E. Moulton, and Mrs. L. McCarthy and Miss Frances Moulton made a trip to Benicia Saturday to visit relatives. They returned to French Corral Sunday evening. Mrs. McCarthy remained in Benicia with her sister, Mrs. F. Clymo.

Rev. Father O'Rielly held services in Birchville Sunday. He was accompanied by Gerald Hogan of Nevada City.

Mr. A. Shipley and stepsons, Eugene and Chas. Shipley made a trip to French Corral Sunday to move household goods to Oroville.

A. Browning and son, Clyde, spent the week end with the family at this place.

Tuesday's Union brought deepest sorrow to the hearts of many, when they read of the death of five worthy and much beloved citizens.

John Bach, whom we claim for one of our own Ridge boys as his birthplace and home of early youth was Sebastopol, was suddenly taken from life; and our own Henry C. Schroeder who was everybody's friend and this friendship did not begin with his political career, for he was well known to us from his early boyhood and was always a favorite. Too much cannot be said of his fine character, and he will be sadly missed by all, in the years to come. His passing is a loss to the entrie community. We well know how many looked forward to his annual visit to tell him their troubles and ask advise and so often he was the memoir of peace. It is hard to become reconciled to his pasing; and Judge Mulroy, so well known through his long term of office in which he was the dispenser of justice, and figured so intimately in the affairs of our county; and the other two men who were not known to us but whose praise of character, the Nugget and Union sounded, to the families of all we extend our deepest sympathy and surely share the sorrow of their bereavement.

Mrs. W. E. Sutherland and son, Richard, returned to their home in French Corral Monday morning, after a pleasant visit with friends in Grass Valley during the week.

Mrs. K. Sullivan was tendered a pleasant surprise Sunday evening when Mrs. A. Browning and family and friends came with ice cream and cake and spent the evening.

FRENCH CORRAL, Sept. 3,—Well, we are in September and surely the first rain will soon come and give our thirsty earth a drink. How welcome it will be in this section.

The past summer will be a memorable one to our people. With forest fires, and destruction of pasture feed, lack of irrigation and loss of fruit and gardens. long continued spell of high temperatures which was so depressing physically the only respite left us, was in our wonderfully cool nights. Evening always brought this blessed comfort

Several times in the past month everything seemed in readiness for a downpour—but it didn't pour.

Miss Millie Clerkin and brother, W. P. Clerkin of Pike City were Tuesday visitors.

Mr. and Mrs. J. Fogarty and Mrs. Fogarty's mother, Mrs. Josie Dahlberg, were Tuesday visitors. Mrs. Fogarty is just recovering from a serious illness.

Clyde Bishop of Los Angeles made a visit to his father N. B. Bishop duing the week.

J. H. Haslett and son, Lloyd, had business in Marysville Wednesday.

N .B. Bishop and Ralph Thomas made a trip to Pet Hill, Grass Valley and Nevada City Wednesday.

Mrs. A. Browning and family made a trip to Nevada City Thursday. Her son, Billy, and daughter, Irene, registered for the coming term in High School.

Mr. and Mrs. J. Keating and Mr. and Mrs. Duff Mernick of Oakland visited, Mrs. Wernick's father, Mr. Thos. Meyers Wednesday. Mr. and Mrs. Mernick returned to their home in Oakland Wednesday evening. Mr. and Mrs. Keating will remain here for awhile.

Columbia Parlor ,No. 70, N. D. G. W. held a meeting of their lodge Friday afternoon.

Mr. and Mrs. R. McNamara of Tyler were Friday visitors. Mrs. J. W. Culver returned to Tyler with them Friday evening, where she will visit for a short while.

Mr. and Mrs. Dudley of Nevada City visited Mrs. Dudley's parents, Mr. and Mrs. W. E. Moulton, last week end.

Mr. and Mrs. R. Dahlberg and children were visitors in North San Juan Sunday.

Mrs. P. Nichols and sons, Chester Arthur, and Lewis and daughter, Mrs. Ina Davis, and grandson, Arthur Davis, of Sacramento and her daughter, Mrs. E. Gallup and husband and two little sons, Lawrence and Donald, of Woodland, were the guests of Mrs. K. Sullivan Sunday. They are all ex-residents of French Corral and planned a lawn picnic at the home of Mrs. Sullivan. A very happy day was spent by all.

Mrs. Clara Weeks, who is rural school supervisor, visited the French Corral school Monday. At this time she gave the pupils of the 6th and 7th grades the Stanford Achievement Test.

The French Corral school has a prospect of four new pupils.

LOW COST OF LIVING WILL PROVE BLESSING

The Department of Labor reports tha the cost of living is 6.5 per cent lower than at the start of the current year. Returns from 51 cities on food prices and from 32 cities on clothing, rents, fuel, light, house furnishings and other items were made the basis of the estimate.

During the six months of 1931, it was said, food prices dropped 13.8 per cent, house furnishings 6 per cent, fuel and light 5.5 per cent, clothing 4.6 per cent and rents 3.1 per cent. Articles in the miscellaneous group dropped only 0.7 per cent.

Tracing prices back to the high peak of June, 1920, the report calculated clothing could be purchased 49.2 per cent cheaper now than then.

Herbert Cooper, District Manager of the P. G. & E. Co. at Auburn, was a Nevada City visitor Saturday.

BUILDERS OF CALIFORNIA

"Here Mr. Jason is your $1.29"

THIS actual incident illustrates one of Bank of America's services to other banks . . . Is it not significant that so many leading financial institutions maintain substantial deposits in Bank of America? . . Who is better qualified to choose a bank than a *banker?*

ALBERT JASON, Pennsylvania business man, deposited a California check for $1.29. It was returned unpaid.

His Philadelphia bank referred the check to us, with the unusual request that we take any necessary steps, aside from legal action, to collect it.

The check had been issued in another California city, 400 miles away. By air mail it went to the nearest Bank of America office. There a representative of the Bank made a personal investigation. And soon Mr. Jason's $1.29 was on its way to Pennsylvania!

Fortunately, such a transaction rarely occurs among the 250,000 or more "transit items" we handle daily. But it does indicate the thoroughness and flexibility of this Bank's statewide service.

For depositors in Bank of America and other banks, this unique service saves thousands of dollars monthly in interest on funds in transit.

You can profit by the same statewide facilities, the same security so widely appreciated by conservative bankers—through an account with any nearby Bank of America branch.

Leading banks in 47 of the 50 largest Reserve Cities in the United States, are depositors in Bank of America

REQUIRE SERIAL NUMBER AND NO CYLINDERS OF CAR

Motorists and motor car dealers of California were advised in a bulletin issued by Russell Bevans, acting registrar of motor vehicles, that the serial number of the car and number of cylinders will hereafter be reqiured on all applications for license renewal and transfers of second hand cars or registration of new cars.

This information will be required Bevans said, in order to comply with the new provisions of Sections 39 and 41 of the Motor Vehicle Act effective August 14th.

New certificate forms for 1932 will have spaces in which this information will be inserted.

As licenses are renewed and transfers made on the old certificates which do not have these spaces it will be necessary for the motorists to write in the information on the face of the old certificate of registration. The procedure was outlined as follows by Bevans:

1. In applying for renewal the motorist should write in the number of cylinders after the line "Make" on the old certificate. The serial number should be written in below the line "Date Issued."

2. The same procedure should be followed in applying for a transfer except that the information should be written on the pink instead of the white certificate. As in the case of renewal, the number of cylinders should appear after the line "Make" and the serial number after the line "Date Issued."

3. The number of cylinders and the serial number will be required from the dealer when application is made to register a new car.

"We respectfully urge the cooperation of the public in giving us this information," Bevans said. "It will be only a few months until we will start our annual renewal season and it is vital that we secure the serial number and number of cylinders of every car registered."

FOREST FIRES SPUR INCENDIARY REWARD

Increasing evidence that many recent forest fires have been deliberately set has been received by the Stop Forest Fires Committee of California, according to a statement by E. B. DeGolia, a member of the Committee and a director of the California State Automobile Association. In making the statement, DeGolia drew attention to the penalties provided by state and federal laws for the offense of maliciously setting a field or forest fire.

Under the state law this type of incendiarism is punishable by a fine of $500 or six months imprisonment or both. The federal law fixes a maximum fine of $5,000 or two years imprisonment, or both, for setting a fire on government land within the area of a National Park.

M. B. Pratt, State Forester and chairman of the Stop Forest Fires Committee, declared at a recent meeting of the organization that the incendiary fire situation is particularly serious in the northern part of California. He stated that the present forest fire season is one of the worst the state has experienced in years, and urged that vigorous action be taken to curb the number of incendiary fires.

The California Fire Emergency Committee, consisting of various state officials and backed by the efforts of a number of civic groups and organized motorists, has posted a reward of $100 for information leading to the arrest and conviction of any person who deliberately sets fires in field or forest areas.

The Stop Forest Fires Committee has issued an appeal to motorists and campers urging them to remember that September present an unusually great fire hazard owing to the dry and inflammable condition of forest and brush growths. County, state and federal laws place restrictions on smoking in most of the mountain regions, except in certain designated places. Campfire permits are required in the National Forests. These may be obtained at any office of the California State Automobile Association.

E T LEITER BUYS HOME OF JUDGE WALLING

E. T. Leiter who recently purchased the residence of the late Judge J. M. Walling through his attorney, Harry McKee, has filed a petition in the superior court asking the termination of the life estate of Mrs. Columbine E. Walling, wife of Judge Walling, acquired thru a homestead made September 26, 1873. This is being done to perfect the tile.

DUTCH FLAT PROVES POPULAR TOURIST RESORT

WHY NOT NEVADA CITY?

Dutch Flat, once populous Placer County mining town, has enjoyed a splendid tourist season, which is ending this week by the return of bay city families to their schools, set for next Monday.

Five new summer homes were built this year, the largest by Fred A. Dorn, lawyer of San Francisco.

Virtually every house in Dutch Flat that has been idle during the Winter has been occupied this Summer for several weeks, and the hotel has been well occupied.

The community swimming pool which has been established proved popular with the Summer colony this year.

Nevada City will have to stir itself to bring some of this tourist trade to our city. The public swimming pool will be a great inducement to tourists with benefits from their remaining in our town and renting houses, buying food, lights, water etc., from the townspeople.

Quite a little stir is being made to build some houses for rent and it will pay us to speed up our efforts in order to be ready for next year.

Our auto camp has been well patronized all season and is one of the coolest and prettiest little spots to enjoy a day, week, or all summer's vacation at a very small expense.

We have two splendid wide paved highways running north and south and easterly and westerly through Nevada City; stages going each way, a train that makes good city connections. and a little more advertising will bring the homeseekers and tourists. Doctors are realizing that many people troubled with sinus trouble are benefitted by this climate. A young couple of the bay region were sent to Grass Valley by a physician. The husband had sinus trouble. They had never heard of Nevada City. They were delighted with this city and were determined to find a house to live in. He had been confined to his bed for about five month and arise from a sick bed to follow the doctors orders. They have been here since spring and will remain until in September. He is becoming a strong, rugged man from taking sun baths and remaining in the open pine scented air as much as possible.

PATENTS

Sell your invention or patent by exhibiting your model or drawing at the Second INTERNATIONAL PATENT EXPOSITION, Sept. 14, to 27, Chicago. Thousands of manufacturers and patent buyers will inspect new devices and patents for marketing. Rates $1 per day for 14 days, entitling you to 14 feet. If you have no model, drawing or description will do. Send for free pamphlet if you have time. If not, send $14 with descriptions and drawings and we will look after your patent interests. B. Hamilton Edison, Managing Director, International Patent Exposition, Merchandise Mart, Chicago.

NOTICE OF SALE OF REAL PROPERTY
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.
IN THE MATTER OF THE ESTATE OF PATRICK RYAN, Deceased.

Notice is hereby given that the undersigned, C. S. Dwyer, administrator of the estate of Patrick Ryan, deceased, will sell at private sale to the highest bidder for cash, but subject to the confirmation by said superior court, on or after Saturday, the 5th day of September, 1931, at ten o'clock a. m., at the law office of Nilon, Hennessy & Kelly, in the Morgan and Powell building in Nevada City, California, the following described real property, to wit:

All the right, title, claim and estate of said Patrick Ryan, deceased, at the time of his death, and all the right, title, claim and interest of his estate in and to that certain lot or parcel of land situate and being in the county of Nevada, State of California, in the southwest quarter of the southeast quarter (SW¼ of SE¼) of section seven (7), in township sixteen (16) north, range nine (9) east, Mt. Diablo Meridian, and bounded and more particularly described as follow, to wit:

Beginning at a point near the easterly end of Silva Avenue and about six feet easterly from the easterly limits of the city of Nevada, at the corner of the fenced enclosure of Harrison Ogden, thence, FIRST COURSE, running northly by northeasterly along the easterly fence line of premises of J. T. Dunlap two hundred seventy-five (275) feet, more or less, to center of Little Deer Creek; thence SECOND COURSE, southeasterly along the center of Little Deer creek two hundred sixteen (216) feet, more or less, to a point opposite a fence corner on land herein described; thence, THIRD COURSE, southwesterly and nearly parallel with first course herein, two hundred eighty-nine (289) feet, more or less, to the westerly fence line of enclosed premises of Harrison Odgen; thence FOURTH COURSE, northewesterly along said fence line of Harrison Odgen two hundred three (203) feet, more or less, to point of beginning, containing one and one-tenth acres ,more or less. Together with the dwellinghouse and other improvements thereon. Subject to a right of way of eveleven (11) feet in width, along said first course, as limited by the two fence lines at present thereon, for the private use of Patrick Ryan, and his successors in interest and said J. T. Dunlap, and also a right of way of eleven (11) feet in width ,along said fourth course, as limited by the two fence lines at present thereon, for the private use of Patrick Ryan and his successors in interest, and said Harrison Ogden.

Bids will be received at the said law office of Nilon, Hennessy and Kelly up to ten o'clock a. m., on the 5th day of September 1931.

TERMS: Cash, lawful money of the United States; ten per cent to accompany bid and balance on confirmation of sale by said superior court; deed at expense of purchaser.

Dated: August 17th, 1931.

C. S. DWYER, Administrator of the Estate of Patrick Ryan, Deceased.

REVIEW OF N. C. BUSINESS

(Continued from page one)

has long been Nevada City's popular electrician, opened an electrical shop on Pine Street, so that he could serve his customers more efficiently.

NEW REAL ESTATE OFFICE

R. J. Martens renovated the building on the corner of Pine and Spring Streets and has an attractive real estate office fixed up. The side of the building which faces on Spring Street was painted and carries the advertisement "Gateway to Health, Climate and Scenic Beauty."

OLD ESTABLISHED BUSINESSES

In point of time Mrs. Elenore Hoeft DeWein has been the longest established in business, having come here 35 years ago and opened a millinery shop which she still conducts.

S. LEE LEITER opened for business on the 27th day of August 34 years ago. He recently gave up his Grass Valley branch and devotes his time to carrying on his business in this city.

J. J. Jackson is carrying on the grocery business which his father who passed away a number of years ago, established over 50 years ago. Within the past month they added fruit and vegetables to their list of commodities in order to give their customers better service.

We are very fortunate indeed in having two fine modern drug stores to serve the public. DICKERMAN'S DRUG STORE and R. E. HARRIS DRUG STORE. They give careful attention to perscriptions.

THE NATIONAL HOTEL is a historical landmark and the perusal of its old register will find many names of note thereon. Since Mr. and Mrs. Fred C. Worth took over the hotel six years ago they have made many changes and improvements. They fully understand how to make their guests comfortable.

THE PLAZA GROCERY STORE for many years owned by W. B. Celio, was sold several years ago to Chester Sheemer and Miss Alice Langman. They are constantly making improvements on their store at the Plaza.

Three years ago the ALPHA HARDWARE STORE suffered a fire which burned the entire building. They built a fine modern hardware store and purchased the Nevada City Hardware and have since served Nevada City exclusively with hardware. They carry a fine line of furniture also.

HOGAN'S SHOE STORE which has been run by Francis Hogan since the death of his father about two years ago, is the exclusive shoe store here and enjoys a large patronage from various parts of this county as well as Sierra County.

COLLEY'S CANDY STORE and FOLEY'S CANDY STORE supply the needs of the sweet tooth of the tourists and residents.

THE NEVADA CITY GARAGE and PLAZA GARAGE SUPER SERVICE STATION take care of the car needs.

In spite of its healthful climate Nevada City residents are some unfortunate enough to be ill or to meet with an injury. When this affliction comes to them they are well taken care of at the NEVADA CITY SANITARIUM by Miss Elizabeth Watson, whose greatest joy is bathing the infant for the first time.

DRS. TITCHELL, SAWYER, WERNER and SWAZEY, as well as the aforementioned DR. REED ,administer to their needs.

For teeth trouble DR. CHAPMAN, IVEY and BELL are on call.

Two first class butcher shops served the public with meats of all kinds. The KEYSTONE Market, Cafahan and Richards, owners, and Michell, NATIONAL MARKET, are first class markets.

LEITER'S RADIO SHOP, Chas. Corey, manager, takes care of the radio needs of the community.

BLUES ISSUE CHALLENGE TO THE FORESTERS

The Blues have issued the following challenge to the Foresters.

To the Management of the Foresters Baseball Team:

We, the members of the Nevada City Blues think your baseball team may be a bunch of good marble players but as baseball players you can't cut the mustard. You have been called the senior baseball team in Nevada City why not get out and prove it. We are willing to play you any time and guarantee to give you a run for your money. To make it interesting and more worth while we are willing to play on a basis of the winner taking all and the loser putting up for all the expenses. Come on Foresters show what you are made of. You might be baseball players and this is the only way to show it.

Spencer White, Manager.
Don Macari, Captain.

24 PINTS OF PEACHES canned with 5½¢ worth of electricity... *a cool, easy way to put up fruit*

Fruits retain their natural color, shape, and flavor when canned with the electric range.

Then, too, there is no boiling or stewing over a hot stove. You simply prepare the fruit in the usual way, pack it in jars with syrup, screw the lids on lightly and place the jars in the oven of the electric range. The oven heat is automatically kept just right. At the end of an hour you remove the jars from the oven and screw the lids tightly.

By actual test, the cost for electricity for canning 24 pints of peaches was 5½c, at a 3½c K.W. hour rate, using 1½ K.W. hours. The cost of canning an equal amount of other fruits was about the same. Besides giving you cool, easy canning, the electric range cooks food perfectly. You spend minutes in the kitchen instead of hours, because of the automatic features.

Stop in at our office and see the new electric ranges. Then select the model you prefer. Special terms make it easy.
